

Attention Payless Shoppers!!

Payless Cards are now available in \$10 denominations!

- Kroger (Payless) gift cards are purchased from the Band Boosters SCRIP program just like all other certificates/cards.
- Kroger/Payless cards are re-loadable (re-chargeable) – at any time, at any Kroger/Payless store or affiliate, and can be used indefinitely.
- Any amount of money can be loaded onto your card.
- To re-load your card:
 - Re-load at the service desk BEFORE beginning to shop;
 - Pay for your re-loads by check, debit card, or credit card.
- PLEASE re-use your card(s). Kroger discourages participants from purchasing new cards every week. They have the option to discontinue our program if these guidelines are not met.
- How you earn using these cards:
 - The cards issued to the Band Boosters SCRIP program are linked to our organization and are automatically tracked by Kroger using the cards' serial numbers;
 - The cards purchased by you and your family/friends as well as re-loads will be linked to your SCRIP account;
 - Kroger sends a SCRIP earnings statement, including serial numbers, after we have reached a threshold of \$5000 in re-loads;
 - Your individual earnings will be sent to you in a statement separate from the earnings report you receive each month for all other certificates/cards.
- Advantages to using re-loadable Kroger/Payless cards:
 - Once you have purchased your card(s) you may re-load them at any time – for any dollar amount;
 - You can sell (or give) friends and relatives one card which they can re-load and use anytime. Your student's account will receive credit for any subsequent re-loads.

This exciting new program gives families the opportunity to increase earnings and simplifies the process of purchasing and using the cards.

Please feel free to contact me if you have any ideas, questions, or testimonials.
